

Home Care Bed

The Home Care Bed from Freedom Healthcare has been designed with a full padded fabric surround and optional matching padded headboards and footboards. The four-section fully profiling mattress platform is controlled by Linak actuators and comes standard with a battery backup for extra peace of mind.

The adjustable bed height goes as low as 21cm and as well as backrest and knee bend, has Trendelenburg and reverse Trendelenburg tilt. With four of the eight castors having convenient pedal central-locking on all four twin wheel castors, the bed is kept securely in place.

The bed comes standard with a 200cm mattress platform length to comfortably accommodate taller users.

Available in **Single** and **King Single**.
